

ESG Solutions

For Oil and Gas Operations

Unlock your industrial facility's full potential by delivering enhanced performance and emission reduction through automation technology.

ENVIRO-SEAL

Achieve Low Emissions Leakage to Better Protect the Environment

Fisher No Bleed & Low Bleed Devices

Mitigate Fugitive Emissions Economically and Effectively

Electric Actuators

Eliminate Emissions While Increasing Safety and Reliability

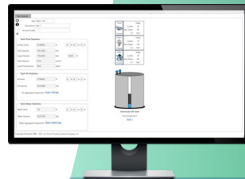

PRVs & Safety Valves

Adopt a Forward-Thinking Vessel Protection Philosophy

ProductionManager™ Applications

Gain Better Insight into Venting to Achieve Environmental and Operational Goals

Tank Protection

Reduce Avoidable Emissions in Tank Protection Systems

WHY ESG? Ensuring safe operating conditions for employees while also being good stewards of the environment is possible. We partner with you to help achieve your environmental goals and realize the benefits of operational improvements as well. As your trusted partner in all ESG initiatives you undertake, you can count on us to stay by your side, every step of the way.

ESG Solutions

For Oil and Gas Operations

BETTIS™

ELECTRIC ACTUATORS

Choose electric, no bleed actuation for fast, measurable ESG results.

XTE3000

RTS CM

RTS FL

RTS FQ

M2CP

SCE300

TorqPlus

FISHER™

NO BLEED DEVICES

Move past the limitations of pneumatic devices with electric solutions.

2100

easy-Drive

L2e

DLC3020f

LOW BLEED DEVICES

Mitigate fugitive emissions economically and effectively with our Quad-O regulation compliant solutions for the oil and gas industry.
